

Problem Set 6

Due Wednesday November 9, 2005

Note: As the exam is on Wednesday, and the material on the homework will be important for the exam, I am posting solutions to the problem set in conjunction with the set itself. The homework will, therefore, not be graded on accuracy, but rather on effort. (basically, turn in something).

(I have gone ahead and posted all the solutions to the end of chapter exercises just in case it might be helpful for your exam preparation)

9.1; 9.2

10.1; 10.2; 10.3; 10.4; 10.5
